Ten went to the post with the Fizer entry, Beana and Felix Bard, favorites at 7 to 2, while Trebor, Senator Tim Sullivan's horse, was next in demand. PENNSYLVANIA ATHLETES WIN.

Wearers of Red and Blue Almost Sweep the Board at Indoor Champions the Board at Indoor Champienships.

The national indoor championships of the Amateur Athletic Union which were held on Thursday night at Philadelphia in connection with the Sportsman's Show resulted in a veritable "scoop" for the University of Pennsylvania athletes. A few events went to outsiders, of course, but the instances were meagre compared with the all-around scoring of the Quakers.

The surprise of the meeting was the appearance of W. W. Coe. the ubiquitous weight.

pearance of W. W. Coe, the ubiquitous weight tosser, who was down on the programme a sa representative of Oxford University. He wore the "dark blue" all right and accounted in hollow fashion for the 13-pound shot and 58-pound weight. His put of the shot, was 43 feet 4 inches and L. Feurbach of New York University was second with five inches less. Coe won the "56" for height with 11 feet, but in an exhibition trial hurled the big weight 14 feet into the air which shows that as an all-around performer the Anglo-

American is improving. Only a couple of weeks ago at the fall freshmen sports of Oxford University, Coe shattered the shot-putting record for English 'Varsities.

The other notable "outside" winner was Ray C. Ewry of the New York A. C., who retired only when he had three jumping championships to his credit. In the standing high jump Ewry hopped over the willow at a high jump Ewry hopped over the willow at a height of 5 feet 3% inches, a performance which has never been equaled by any athlete except himself. I. E. Baxter, who also rep-resented the New York A. C. secured second medal with a leap of 4 feet 10% inches. Ewry cleared 52 feet 11 inches in the three standing jumps. Baxter again earning second with

Tim Hurst looked me up the other day for a match for Gus to fight in Louisville. I named Jan. 13, so as to give Ruhlin's hand time to get well. He injured his hand in his melée with Jeffries. I told Hurst that Ruhlin is ready to meet either Jeffries, Peter Maher, Tom Sharkey or any white man he can get. Wild Bill' Hanrahan will do now, since he has whipped Marvin Hart. Ruhlin would like to tackle Jeffries again. I recently spoke to a promoter of boxing in Philadelphia about such a match, and he said that he would make an attempt to bring the pair together in a six-round bout. If they come toget ar again I feel sure that Ruhlin will put up a better fight than he did at San Francisco."

As soon as the sports reached Guttenburg they learned that if the fight took place the principals, seconds and spectators would be arrested, and few of them would even venture into the hall where the ring was pitched. One well-known prize-ring follower wanted the fighters to go ahead with the bout and take chances on getting away from the police even if the place were raided, but they lacked the nerve. They hung around the saloons until an early hour yesterday morning, talking of the good old days when racing was in full swing at the "Gut," and then sadly wended their way home across the river.

CLOSING DAY OF THE LADIES KENNEL ASSOCIATION SHOW.

Trophy for Dogs Gwned by Actrosses. After four days of fun as good as a girl has at her first ball, the show of the Ladies' Ken-nel Association wound up last night. It has scored a success. The doggy folks are pleased; the society folks have been well pleased; the society folks have been well entertained, and, best of all perhaps, the box office has returned a story of handsome profits. The work of the judges was kept up throughout the day, owing to the numerous specials, and saide from the performing dogs there was nothing else going on in the ring. Most of the specials were for L. K. A. members.

There was a surprise in the judging for W. C. Wittney's Rallyhoo Rev cup, for it was

W. C. Whitney's Ballyhoo Bey cup, for it was awarded to Mrs. H. G. Trevor's curly poodle Milo Fils. The conditions called for the best American-bred dog and many were surprised to see Milo Fils put above Hands Up, the champion wire-haired fox terrier. Yet Milo Fils is recognized as the ideal for its breed. The special was the eighth prize it has won at this show and the twenty-fifth in its brief life of twelve months. A poodle from the Trevor kennels, the Meadowmere, scored for Trevor kennels, the Meadowmere, scored for another special, that for dogs owned by actresses. The prize was a fine cup given by Mr. and Mrs. J. L. Kernochan and it was won by Miss Amelia Bingham with a curly poodle from Meadowmere.

It used to be called Shinnecock, but possibly actuated by an eye for business Miss Bingham has rechristened it The Climber. Actresses, by the way, were very numerous at the show in the morning and during the two hours between the matinee and evening performances. Two stage beauties who watched the beasts were Flo and May Hengler from the New York Theatre. One of the noted Hengler sisters has studied geometry which gave point to her remark about dachshunds. She said that a dachshund was the "longest distance between two canine points."

Gossip of the Harness Horses.

Speedway steppers of New York are get-ting plenty of rest these days. A few road drivers were disappointed that there was not more snow this week so that they might have a chance for fast moving on the snow over the Harlem course. Last winter there were many good sleighing days, but the roadites did not take to sleigh brushing very keenly and tilts of this sort were not frequent. A. B. Gwathiney is one of those who is not averse to a brush with sleighs. His stable is well supplied with good snow horses. Prestina is a big-gaited animal and said to be a flyer over the snow. No doubt the rest that some of Joe Thum and William Amann rolled the first series of a home and home match for a fifty-dellar stake at the New York alleys yesterday afternoon. The Fidelia Club bowier was the winner, five games to two.
